Re: Airport Administration Building – Taunton Municipal Airport

Dear Mr. Adams:

As you are aware, Massachusetts Department of Transportation (MassDOT) Aeronautics Division (herein referred to as the Aeronautics Division) is committed to fund the new Airport Administration Building at Taunton Municipal Airport. As stated in previous letters to the Airport Commission, MassDOT will fund 95% of the cost of the project while the Airport will be responsible for 5% of the cost of the entire project as well as 5% of the A/E fees associated with the design, bidding, and construction phases services that the Aeronautics Division contracted directly with Fennick McCredie Architecture (FMA).

As part of this project, waterline and sanitary sewer line will be extended from the building along Westcoat Drive to Middleboro Avenue. The City of Taunton is responsible for extending the sanitary sewer line along Middleboro Avenue to Westcoat Drive. The timing of these connections is critical to this project.

Should you have any questions, please feel free to contact Owen Silbaugh, PE Director of Airport Engineering.

Sincerely,

**Jeffrey
DeCarlo**
